

TIPS FOR CREATING YOUR APPLICATION VIDEO

We want to learn more about you as a person and your life experiences.

In making your video, consider answering the following questions:

- ✓ Why did you choose your undergraduate field of study? What about it do you find interesting?
- ✓ What do you hope to gain from attending the SEAS 4.0 Master Programme?
- ✓ What is the state of the art of naval architecture and marine engineering (and/or shipping industry) in your country?
- ✓ What multicultural experiences have you already had (living or studying abroad, for example)?
- ✓ How do you manage cultural differences?
